Technical Skills

- **Web Developer:** Java, Springboot, ReactJS, Wordpress, ...
- **CMS Framework:** Magnolia CMS, Liferay,...
- **Mobile Developer:** React Native, Java, Objective C,...
- **Backend:** Spring boot, Nodejs, GRPC, Microservices,...
- **Database:** MySQL, MongoDB, SQL Server,...
- **Programing language:** C, C++, Python, Java, JavaScrip, Objective C
- **Tools:** Git, Trello, ...
- **Other skills:** project deployment, tech lead, code firmware,...

Profile

I have four years of experience as a Full-Stack Engineer, specializing in CMS systems and IoT. I have led development teams, built and managed both frontend and backend systems, and ensured seamless integration. My goal is to become a strong tech leader, continuously learning and sharing knowledge to drive innovation.

Education

COMPUTER ENGINEERING

Aug 2018 - Aug 2023

Hanoi University of Science and Technology

Engineering degree: Very Good

CPA: 3.25

Graduation topic: develop a platform to connect, manage, and control multiple smart devices from separate manufacturers. Additionally collecting data for analysis and recommend action to user.

Employment

Senior Java Engineer

Oct 2023 - Present

SmartOSC, 19 floor Handico tower, Pham Hung street, Nam Tu Liem district, Hanoi capital

- Developed and maintained Magnolia CMS solutions, optimized performance and building custom modules.
- Built Java-based backend services, optimized MySQL queries, and developed RESTful & GraphQL APIs.
- Created and integrated React-based headless frontend for seamless content rendering.
- Managed Apache configurations, improved security, and optimized system performance.
- Implemented GitLab CI/CD for automated testing and deployment.
- Mentored junior developers, promoting best practices and ensuring high-quality code standards.

Technologies: Magnolia CMS, Java Core, CICD, MySQL, Aws, Apache, React, etc

Outstanding projects:

- MMP's CMS Website: Built a CMS website using Java Spring Boot, optimized for high traffic and large datasets.
- Dentsu's CMS Website (Headless CMS): Developed a headless CMS with Magnolia and React, ensuring seamless API-driven content management.

Full Stack Developer

Aug 2021 - Feb 2024

YooTek Holdings, Quận Nam Từ Liêm, Hanoi, Vietnam

- Built microservices server backend with Java Spring Boot & Nest.js, optimized MySQL, MongoDB, WebSocket, and MQTT to handle high-traffic systems.
- Developed mobile apps using React Native, integrated native modules (Java, Swift), and managed state with Redux.
- Integrated payment gateways (MoMo, VN Pay) and IoT devices (Legrand, SE, Tuya), deployed on CMC Cloud using Docker & Kubernetes.
- Developed a home gateway for smart devices (Zigbee, Z-Wave, BLE) and implemented AI modules (YOLO, OpenCV) for fire and stroke detection.
- Led a team of 5-10 members, assigned tasks, tracked progress, and

Languages

- Vietnamese
- English

Interests & Favourite quote

- Travel
- Improve new skills
- Strong, assertive, loving challenges, and discovering new lands, things, and people.
- "Learn from yesterday, live for today, hope for tomorrow."

evaluated performance

Technologies: Spring boot, React Native, Python, Nodejs, Nestjs, MQTT, RabbitMQ, Microservices, MongoDB, etc

Outstanding projects:

- Yoolife Application: An application designed for residents of urban areas.
- YoolIOC Application: An application designed for the operational management of urban areas, focusing on fundamental tasks.

Java Developer

Nov 2020 - Mar 2021

Hanoi Telecom Corporation, Mỹ Đình 1, Hanoi, Vietnam

- I used the Liferay framework to construct customers' websites, and developed a backend server with Spring Boot, adhering to the REST API format.
- I conducted research on algorithms and query optimization using Spring Data JPA and MySQL.
- Actively participated in the business analysis process and demonstrated proficiency in utilizing management tools like Trello and GitHub for monitoring progress.

Technologies: Spring Framework, MySQL, Liferay, Git, Trello, Java

Outstanding projects:

- VNPT portal information

Full Stack Developer - IT Lecturer

Aug 2019 - Sep 2020

ELEDEVO ACADEMY, Hanoi, Hanoi, Vietnam

- Started as a Java Intern at Eledevo Academy, later transitioned to a part-time role.
- Developed APIs using Spring and Express, following RESTful principles.
- Built web and mobile applications with React and React Native, utilizing Redux and Saga.
- Taught basic programming, helping students build CRUD-based applications with Spring, Node.js, and React.
- Supported employees and led a team of 1 to 3 interns.

Technologies: Spring Framework, React JS, React Native, JavaScript, Java, MySQL, MongoDB

Outstanding projects:

- Landing page to introduce Eledevo Academy
- The Fruit Market application

Other informations

- The founder of a clothing store. Responsible for liaising with suppliers to negotiate quantities, varieties, and prices of imported goods. Additionally, writes sales content on the online platform (Facebook page).
- Serves as the MC for several product introduction videos, primarily in the smart home and automation field. Acts as the company's spokesperson, presenting and introducing new product features during product launches or related events.
